TEXT 1: NEW COMICS

1 Seeing your best friend in pain is never easy. Trinity Jagdeo knows that well, after her closest mate, Alexia, was diagnosed with a
2 serious degenerative disease. Alexia had to spend months in hospital to finally understand that her life would never be the same again.
3 Trinity did what she could to help her, but they could only watch films together. Eventually, she realized that Alexia needed somebody
4 to look up to in order to help her through the pain she was suffering. It was at this point that Trinity started creating comics featuring
5 superheroes with disabilities. It gave Trinity something to focus on, and it inspired her friend Alexia never to give up hope.

6 Disney ignored her suggestion to create characters with disabilities or special needs, so Trinity established her own non-profit
7 organization —“From We Can’t to We Can”. Through that, she has written and illustrated comic books which prove that people can
8 still be superheroes, even if they aren’t like everybody else. She has made three incredible comics. The characters in Trinity’s books
9 are based on real people, and this only makes her work much more powerful. Alexia and other kids in her position are incredibly
10 grateful for what Trinity has done. It’s no wonder that she gets asked to speak at schools and universities, because she’s just as
11 inspiring as the characters in her stories.

12 This girl can definitely change the world, with or without superpowers. Hopefully, Trinity’s comics will convince mainstream networks
13 and content creators to start giving a greater voice to those who still do not have one.

TEXT 2: WHY EVERYONE SHOULD HAVE MUSIC IN THEIR LIVES

- 1 Most of us come across music almost every day: streaming on our mobile device, on the radio, television or in the streets. But why
2 is it so important? According to Andy Smith, composer, musical director, educator and presenter on BBC, there are four main reasons
3 why everyone should have music in their lives.
4 Firstly, music brings people together. It speaks to all when words can fail and, wherever you go in the world, it is understood. Music
5 is a universal gift and its power to connect people is without question, as it is an art form with human interaction at its centre. Most
6 importantly, music has the ability to join people through the instruments they play or through a shared interest in a particular style.
7 Secondly, music improves your health and well-being. It stimulates the brain, which in turn helps with pain relief, reducing stress. A
8 study from Harvard University has shown that relaxing music may lower blood pressure and heart rate after physical exercise. It can
9 also improve mood and reduce anxiety and, by connecting people, it can be an antidote to loneliness and social isolation.
10 Music can also improve resilience. There are many skills required in order to learn how to play a musical instrument: technique,
11 reading music, expression, listening and, as you continue to perfect these skills, you gain self-assurance.
12 Finally, for Andy Smith, music is a creative means of expression for people from all social and cultural backgrounds to express
13 themselves. Whether it is to transmit a political message, a particular emotion or just for pleasure, musicians have used sound and
14 music since the dawn of humanity.
